

SHIVAM CHAUHAN

Greater Noida, Uttar Pradesh

☎ +91 7068529262 — ✉ chauhanshivam990@gmail.com —  LinkedIn —  GitHub (900+ contributions) —  LeetCode (300+ problems)

SUMMARY

Final-year Computer Science undergraduate with hands-on experience in full-stack development, AI systems, and computer vision. Strong problem solver with 300+ LeetCode problems solved and 900+ GitHub contributions. Built and tested real-world projects spanning autonomous systems, AI-powered platforms, and browser tooling. National-level drone competition finalist (NIDAR, DFI MeitY, Govt. of India).

PROJECTS

- **GigShield AI** – AI-Powered Insurance for Gig Workers  GitHub
Tech: React, Node.js, Express, MongoDB Atlas, FastAPI, Python, OpenWeather API, Razorpay
 - Built a full-stack AI insurance platform for delivery workers that auto-detects 4+ real-time risk conditions (rain, heat, pollution, natural disasters) via OpenWeather API and files claims instantly.
 - Integrated Razorpay sandbox for automated payouts and implemented an AI vitality score engine using Node.js cron jobs to assess worker eligibility in real time.
- **Smart Traffic Management System**  GitHub
Tech: React, TypeScript, Supabase, YOLOv5, OpenCV, SUMO
 - Architected an AI-based traffic management system using YOLOv5 for real-time vehicle detection and congestion analysis across up to 4 simulated intersections via SUMO.
 - Designed adaptive signal control logic supporting both AI-driven automation and manual override modes.
- **CodeVault** – LeetCode to GitHub Browser Extension  GitHub
Tech: JavaScript, HTML, CSS (Chrome Extension)
 - Developed a Chrome extension that automatically detects solved LeetCode problems and pushes solutions to GitHub, organized by difficulty and category; personally used to sync 70+ solutions.
 - Implemented GitHub Personal Access Token authentication via a clean popup UI, with progress tracking showing total problems pushed.
- **Drone Disaster Relief System**  GitHub
Tech: Python, OpenCV, ROS, IoT
 - Developed a fully autonomous dual-drone system for disaster response; successfully tested in college campus environment, detecting humans via computer vision and navigating without manual intervention.
 - Selected as **National-level Finalist** in the NIDAR Drone Competition (DFI & MeitY, Govt. of India).

TECHNICAL SKILLS

- **Languages:** C, C++, Java, Python, JavaScript, TypeScript
- **Frontend:** HTML, CSS, React, React Native
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, SQL, Supabase, Firebase
- **Tools & Technologies:** Git, OpenCV, YOLOv5, ROS
- **Core Concepts:** Data Structures & Algorithms, OOPs, DBMS, Computer Networks

CERTIFICATIONS

- | | |
|---|--------------------------|
| • CCNA – Cisco Certified Network Associate | Cisco Networking Academy |
| • Cybersecurity Essentials | Cisco Networking Academy |
| • Python Programming (PCEP Level 1 & Level 2) | Cisco Networking Academy |
| • MongoDB Developer Certification | MongoDB University |

EDUCATION

- | | |
|---|-------------|
| • GLBITM, Greater Noida | 2023 – 2027 |
| B.Tech - Computer Science and Engineering | |

ACHIEVEMENTS & COMPETITIONS

- **Finalist** – NIDAR Drone Competition (National-level, DFI & MeitY, Govt. of India)
- **Finalist** (College Level) – Smart India Hackathon (SIH)
- **Advanced to Phase 3** – Guidewire Hackathon (Ongoing)
- **Participant** – HackFest, Zoho SaleIQ Chatbot Challenge
